UP Health System provides comprehensive health care for the Upper Peninsula of Michigan through its three hospitals – UP Health System–Bell and UP Health System–Portage, both part of LifePoint Health, and our flagship facility, UP Health System–Marquette, part of Duke LifePoint Healthcare – as well as a number of primary and specialty care clinics throughout the region.

Our more than 2,700 employees are committed to providing high-quality, compassionate care for residents of the UP, utilizing the latest technology in imaging, orthopedics, cancer care, heart care and more.

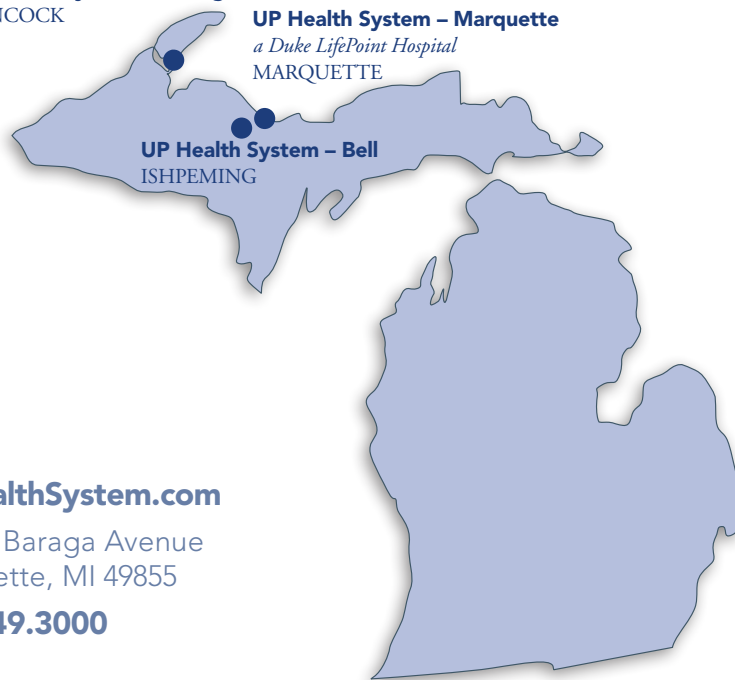

Our commitment to the well-being of our neighbors extends beyond our hospital walls as well, through outreach programs like annual health and safety fairs, community runs and walks, family health screenings and dedicated support to numerous local charitable organizations.

We recognize the crucial role a thriving health care system plays in supporting the economic health and development of a community, and we are proud to share our contributions through this report.
